

MUHAMMAD NOUMAN HANIF

A FLUTTER DEVELOPER

Gujrat, Pakistan | nouman.devv@gmail.com | +923179575181 | [LinkedIn](#) | [Github](#)

PROFILE

Flutter developer with 2+ years building scalable, user-focused mobile apps for startups and freelance clients. Experienced in Flutter/Dart, Firebase/SQL, REST APIs, third party SDKs and Codemagic CI/CD; delivered end-to-end B2B ecommerce solutions with role management, push notifications and SMS integration.

PROFESSIONAL EXPERIENCE

- Flutter Mobile App Developer, Fiverr****May 2021 to Present**
 - Freelance mobile developer delivering end-to-end Flutter applications for startups and clients, focusing on scalable architecture and maintainability.
 - Built and shipped multiple production apps with REST API and third-party SDK integrations (payments, analytics, SMS, push notifications).
 - Implemented clean, modular code architectures and best practices to simplify maintenance and accelerate onboarding.
 - Established Codemagic CI/CD pipelines and automated build/release processes to improve release reliability and speed.
 - Collaborated with designers using Figma-to-Flutter workflows to produce responsive, high-performance UIs.
- Flutter Mobile App Developer, Shaudan Pvt. Ltd.****Sept 2022 to Aug 2023**
 - Full-stack mobile developer on a B2B e-commerce platform (mobile + admin) built with Flutter, Firebase, and Google Cloud Platform.
 - Implemented role-based access control, push notifications, and SMS gateway integrations to support wholesalers and retailers.
 - Integrated third-party SDKs and used GetX for state management to improve app stability and performance across devices.
 - Contributed to architecture, release processes, and production deployments to deliver a reliable ordering platform.
- Junior Web Developer - Shopify, Zee Creative****Jul 2020 to Feb 2021**
 - Developed and maintained client websites using Shopify, including custom theme creation with Liquid. Built highly responsive, user-friendly interfaces and implemented tailored features based on client requirements.

| • Android Studio | • Play Console | • Python - ML | • Shopify - liquid |
| • Git & Github | • Codemagic (CI\CD) | • Google's Colab | • Cache |
| • Third party SDK's | | | |

PROJECTS

- Estate – Smart Real Estate Marketplace****Jun 2024 to Sept 2024**

Fiverr

 - Developed a cross-platform real estate marketplace app using Flutter for buying, selling, and renting properties
 - Implemented advanced search and filtering (location, budget, size, price range, sorting) to improve user experience
 - Integrated REST APIs for dynamic data fetching and real-time property listings
 - Designed responsive and user-friendly UI/UX with smooth navigation across multiple devices
 - Built features like favorites management and personalized property search
 - Implemented subscription plans (1-month, 3-month) for premium listings and enhanced visibility
- Vantage Tennis – Tennis Coaching & Video Analysis****Oct 2024 to Jan 2025**

Fiverr

 - Developed a cross-platform sports training application using Flutter for tennis players and coaches
 - Implemented video streaming functionality for high-quality training content delivery
 - Built real-time chat feature enabling direct communication between players and professional coaches

- Integrated video upload and management system for gameplay analysis and feedback
- Enabled coaches to review user-submitted videos and provide personalized performance insights
- Designed and implemented favorites feature for saving training content
- Integrated subscription system (Gold, Platinum) for premium coaching resources and exclusive features

Brikol – Service Marketplace & Task Management App

Feb 2025 to Jun 2025

Fiverr

- Developed a cross-platform on-demand service marketplace app using Flutter connecting customers with service providers
- Implemented service request system allowing customers to post tasks and receive multiple provider offers
- Built provider-side features to browse tasks, submit offers, and accept service requests based on availability
- Designed comprehensive order management system (active, ongoing, scheduled, and order history tracking)
- Developed real-time tracking and status updates for seamless task monitoring
- Created provider profiles with wallet management, performance analytics, and achievement tracking

Shaudan B2B Marketplace

Sept 2022 to Sept 2023

Shaudan Pvt. Ltd.

- Developed a B2B eCommerce mobile application connecting wholesalers and retailers for streamlined business transactions.
- Collaborated with Shaudan to design, develop, and deploy the mobile application using the Flutter framework.
- Worked closely with cross-functional teams to analyze business requirements and translate them into scalable technical solutions.
- Implemented responsive UI, product management workflows, and optimized performance for a seamless user experience.
- Contributed to application deployment, testing, and continuous feature improvement.

eClass - ELearning Mobile Portal

Jul 2022 to Jul 2023

Final Year Project

- Developed a cross-platform mobile application using Flutter and Firebase for academic communication and management.
- Implemented secure authentication, real-time chat, push notifications, and live data synchronization.
- Designed features including attendance tracking, quiz creation & attempts, assignment uploading, and result management.
- Built responsive and user-friendly UI/UX to enhance student–teacher interaction and system usability.
- Applied real-time database integration, backend connectivity, and scalable mobile app architecture principles.

EDUCATION

University of Gujrat, Pakistan

2019 to 2023

BS Software Engineering

Focused on software architecture, mobile development and databases. Relevant coursework: Data Structures & Algorithms; Mobile App Development; Databases; Software Engineering; Software Testing. Capstone: Led development of an end-to-end eClass School Management app (Flutter + Firebase) implementing authentication, role-based access, push notifications.

Punjab Group of Colleges, Gujrat

2017 to 2019

Fsc. Pre-engineering

VOLUNTEERING

SES - Software Engineering Society

Technical Assistance

Provided technical guidance and mentorship in some workshops and provided a roadmap for a stable and established career.
